

In the name of God

This preface is good for preparing minds of everybody, we start with 3-4 modern examples that each one of them is considered as an instance what we say, in fact their names and memories same as Aeen Ganj va Ganj Aeen.

Due to lack of opportunity, since great witness like Imam Khomeini and his works such as 40th hadith and so on, which has been inherited since 1318 SH and 1320 SH that he glorified scholars and his teachers like Hajj Sheikh Abdolkarim Haeri Yazdi as the head of Muslims and he also praised Sheikh Mohammad Shahabadi, we also respect them who has been considered as mirror and custom.

The witness of Hajj Agha Ruhollah, about great persons such as Ayatollah founder of Qom Seminary, was also glorified repeatedly in the position of later and on the other hand, documents and memories of first Pahlavi period was published too, recently it has been shown the conversation between Mohammadreza, prince and his wife (Fawzia of Egypt) and reading newspaper of that time even discussion with Reza Shah about role of Hajj Sheikh in the series of The Mystery of Shah for 20 minutes.

From important critical, social and historical book called Kashif al-Asrar in the mid twenties in 1324-25 by Imam (peace be upon him) to a valuable book called Gofar Shiie dar osul va foru, written by Ayatollah Shams al-Din Mohammad Mojtahedi Najafi in order to welcoming the book of Kashif al-Asrar in 1328 and later it has been published in the 1330s.

Each one of them is documentary and stable which are usable and documentary and understandable instances for this statement, but we briefly remember the late Martyr Ayatollah Morteza Motahari about his relationship with Hajj Agha Seyyed Hossein Tabatabai Brujerdi and his useful relationship with Allameh Tabatabai which sometimes it was quoted in statements and memories of Ayatollah Shams al-Din Mojtahedi Najafi, Prof. Ali Davani and so on.

Doing tasks by Seyyed Ali Agha Ghazi who was master same as mountain of treasure, scientific and moral treasure.

On the other hand, it is the duty and obligation to exponential orbital symmetry with the great task of Ayatollah Brujerdi who was leader of Shiite world and marja of Islamic world in that time, on one hand, he has done his duty so honestly whose emphasis on the Quran verses and Hadiths like *خَلِّصِ الْعَمَلَ، فَإِنَّ النَّاقِدَ بَصِيرٌ بَصِيرٌ* which it is still famous among scholars.

Even there is a parable from him, its another aspect is attracting and tending some people (as Oveis was attracted to Islam) like Anne marie Schimmel and Henry Corbin toward him from the west or Reza Ruzbe Zanjani who had enthusiasm for doing educational tasks which he was educated from school in Zanjan to Alavi and Nikan school by Allameh Karbaschian.

Or it should be remembered like these instances in memories of Ayatollah Khamenei who is the supreme leader of Iran, he was educated by great men such as Ayatollah Morteza Haeri Yazdi. As another section of Aeen Ganj va Ganj Aeen, it should be Ayatollah Shams al-Din Mohammad Mojtahedi Najafi known as Hakim Khaze who is a great man from Najaf and Qom, is 90 years old.

Of course, we can observe both of them which is called temperament and wisdom as two divine messengers that God give us according to his mercy and our capacity or lend them to us. Anyway, either theism or negligence, the purpose of the creation of the universe and man.

What does it mean? When some people listen to God`s word but ignore it, we should say in current important situation which it is exactly the pathological words of Imam Ali (peace be upon him) who said and we still require to notice to him with incompetent managers exactly too.

The managers not only ignore present and future generations in terms of material life and sustenance but also they don`t notice to conscience, culture, faith of posterity. It could be said that warnings of Imam Khomeini (peace be upon him) and Supreme Leader came true completely, but it was done by those who know themselves as scholars.

Because it doesn`t leave any trace to record their undeniable and deadly and surprisingly The young of Iran where there are so many martyrs in it, unfortunately welcome from Reza Khan to some treasury predatory officials of arrogant Pahlavi regime or even some of ruthless managers who were caused to collapse and overthrow of the Islamic Republic which is works of blood of thousands of patriots and martyrs as a savor, as if it is clear painfully.

There are dozen or thousand instances of fake sects and nations in the world which are ethnitic and worship devil according to their fake sect called existentialism. They prosebyitize devil, elf undeniable. It can be found that not only they return to agree something called creation and creator but also they have written about Hermeneutie.

Due to lack of opportunity, it can`t be discussed about the issue that it is explained about international Cartel and trusts which they try to achieve to goals of their evil groups by widespreading or creating dozens of physical diseases and increasing types of cancers and developing chemical drugs and equipped laboratories.

On the other hand, scorning Unitarianism, attacking to inherent beliefs as if it is a horrible battle. It`s the baffle which train on the last of human and just doing its task and all of thoughts, feelings which has been left from identity of human, are being destroyed by advertising in satellite networks, the mafia of networks of TV, radio, cinema.

Of course, this issue is complex and it isn`t related to today but if we research, we will find that it has been cultural epic mythology and moral mythology epic so far and there are great man who has found better the creation of creator and philosophy of reasonable life.

There was parts which must be praised them. They have done their tasks to characters which our duty to glorify them briefly, we must mention the Prophets, they were not only human who put in good and bad situations but also they are self-made human beings so we must discuss about those.

It could be counted dozens of hadiths, verses, references of Sunnis and Shiites and scientific, juridical, philosophical, mystical references one by one.
